PROFILE

I am a highly proficient developer with over 6 years of experience working with data driven services. Throughout my career, I have consistently demonstrated reliability, competence, and a focused approach to my work. I have successfully created numerous solutions for diverse problems, including ecommerce, CRUD implementations, and other related disciplines. My expertise encompasses a wide range of Information technology tasks, ensuring high-quality results that meet the unique needs of each project and client.

EDUCATION HISTORY

Masters of Fine Arts, Liberal Arts Jan 2009 – June 2010
Graphic Design Institute

Google IT Certificate, Systems Jan 2015 – Sep 2016
Clover College of the Arts-

WORK EXPERIENCE

Vending Technician Aug 2020 – present

- Automated Excel and Outlook office and leveraged web technologies to create intuitive UI so my team could have a smooth experience.
- Produced numerous projects to streamline the company's data input mechanisms.

Freelance Creator Aug 2015 – May 2019

- Video Editing, Audio Editing, Chrome plugin design, consultation.
- Created several Android apps and IOT devices using C++, Go, Rust, Python, Lua, Kotlin, and JavaScript's React framework. I really appreciate working on projects that have a game loop.
